

MIDDLEBURG

Jeff Austin has moved into the Greeley Lutes property and is now a part of us.

Jack Slader and one or two members of his family are reported sick of Spanish influenza.

There are no slackers among the democrats here. They are all in line for Stanley and Helm.

Mr. and Mrs. W. T. Jasper went to Mintonville Saturday to gather chestnuts. They took with them little Katherine Lee Forie.

The Baptist church here is without a pastor and the officers of that church are looking for a live man. A man with a family preferred.

A good rain fell here Friday night and Saturday morning. The ground was wet to a slight depth and the supply of stock water made better.

The school closed here Wednesday morning, but we are hoping that conditions will soon be such that business can be resumed. Perilous times these.

This personal mention through the carelessness of the "devil" perhaps, went into our letter of last week: "Miss Iva Ransom, of Lancaster, is visiting Miss Allen Scott."

The usual Sunday evening crowds here and at Yosemite were not so large last Saturday. It is supposed that the Spanish flu has something to do with diminishing the number usually present.

Owing to the scarcity of quail and the distance to be traveled to find them, the high price of ammunition, and the usual bad marksmanship it is estimated that each bird killed will cost at least 50 cents.

Rev. Hutton, pastor of Calvary Baptist church, four miles south of this place, began a two weeks' meeting there Monday night, but the order for closing all church services came and he closed Wednesday evening.

The Red Cross ladies shipped 112 dressed chickens and a case of eggs to Camp Taylor for the sick soldiers. These chickens were dressed and donated by the good ladies of this section, who are always ready to do something for the soldier boys.

We have had our meatless and wheatless days and have gotten used to them and liked them, but now we have, by conditions over which we have no control, been forced to abstain from church and Sunday school services. What will come next the Lord only knows. We would not be understood as complaining, but this is so much out of the ordinary that things don't seem right with people here.

The Kaiser is reported to have said on one occasion that he would stand for no nonsense from the United States, but perhaps he has learned by this time that we have a man at the head of affairs in this country that does not deal in "nonsense." The way he has gone after the old "beast of Berlin" doesn't look nonsensical to a man up a tree, and the old brute is able to see the real meaning of it if he is possessed of as much sense as a louse.

The late treacherous peace propositions have not fooled the women of this vicinity. They are still going after the Kaiser by knitting sweaters, socks, etc., for the soldiers in France. The women of this country are entitled to more than half of the praise for the victory that is being won for right and justice. The sacrifices that many of them have made can not be told in words, and the victory that is being achieved could never have come to us but for the untiring efforts of these "angels of mercy."

WIFE BEATER FINED \$15,000

According to the tabulations of an adding machine which was brought into use in the court of Superior Judge Thomas F. Graham, at San Francisco, Mrs. Ruth Griffith had been given 300 beatings by her husband, Harry Griffith, a sign painter, from whom she was seeking a divorce. Mrs. Griffith told the court that her husband had beaten her so many times she had lost count of them.

Taking the tabulation of the adding machine as correct, and in accordance with his announced policy of awarding wives \$50 each for beatings their husbands inflicted, Judge Graham awarded Mrs. Griffith a lump sum of \$15,000 as damages.

TURKEY PRICES TO SOAR

Substitution of chickens, ducks and geese for Thanksgiving day turkeys in order to supply the men of the army and navy with turkey dinners is urged on the public by market experts. The Government has contracted for entire supply of cold storage turkey, it is said, and has also arranged to purchase most of the fresh killed fowl. Consumers who insist upon turkey for Thanksgiving will be compelled to take their chances in a scanty market and the prices, it is predicted, will "soar sky high."

IN LOVING MEMORY of John W. Martin, who died October 7, 1918: In life I loved you dearly.

In death I do the same, I often sit and think of you, And wish you were here again; I think of you in silence.

No eyes can see me weep, But many a silent tear I shed When others are asleep.

Sadly missed by his loving friend, MISS DEAMIE ELLIOTT.

SINCERE GRATITUDE

Mrs. William Bell, Logansport, Ind., writes: "I deem it my duty to express my gratitude for the good Chamberlain's Cough and Diarrhoea Remedy did when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me."

Kentucky has exceeded her quota in the Fourth Liberty Loan campaign by five and a half million dollars and reports from several counties are incomplete. Both the Eastern and Western Districts went "over the top" by substantial amounts.

The Government has put a ban on cigarette smoking among the military boys during the epidemic of influenza, now raging in all parts of the United States.

Efforts of Count von Bernstorff and others to corner the supply of carbolic acid in the United States and thus cripple the plants manufacturing explosives for the Allies were disclosed by A. Mitchell Palmer.

A dispatch from Chicago says that L. E. Davis, the self-styled "king of hoboism," is preparing to unfurl a service flag bearing 30,000 stars. He says the order of hoboes has a membership of 507,536 and that 30,000 of them are doing duty here and over there.

Although there was a sharp decrease in the number of new cases of influenza in New York, the death toll from pneumonia still grows. Under a law just passed landlords who fail during the epidemic to live up to contracts calling for heat will be arrested. Shinbuilding plants are seriously handicapped by the disease.

Though definite figures are not yet tabulated, Treasury officials are confident that the six billion Liberty Loan has been greatly oversubscribed. Reports from all parts of the country indicated that huge last-hour subscriptions had been made to swell the already large total. It is estimated that more than 20,000,000 persons subscribed to the loan, the greatest popular response to any such movement in the history of the country.

TO THE FARMERS

Due to your compliance by our Government to produce all the poultry possible, wherever it is practicable, we find a very large crop of chickens in the Central West, South, North and Northwest, with a shortage of labor, shortage of cars for transportation, shortage of freezing space that is being used for freezing meats to be shipped to our soldiers and Allies abroad, and in order to prevent waste of some of the product, and in order to help out the transportation situation and the freezer problem, we ask your patriotic cooperation to carry out the following suggestions:

First—Market only the well matured birds, leaving the others on the farm to grow and increase the amount of poultry flesh.

Second—From now until Dec. 1st, the larger percentage of old hens are moulting, are unattractive in appearance, weigh less and you should market only those birds that are full-plumaged—holding the balance until after Dec. 1st.

Third—Wherever practicable hold as many birds as possible on the farm until after Jan. 1st in order to relieve the freezer situation.

Fourth—Keep all pullets for egg production this winter and next spring.

Fifth—East of the Mississippi river market turkeys that are intended for Thanksgiving from Nov. 10th to Nov. 15th, and West of the Mississippi from Nov. 8th to Nov. 14th, holding the balance until Dec. 7th, as usually a large percentage of turkeys reaching the market too late for Thanksgiving must be placed in cold storage, room for which this year is unavailable for reasons above stated. J. N. Saunders, Lincoln County Food Administrator.

BRONCHIAL TROUBLE

GO AHEAD! PUT 'EM ON!

Neither the law of God nor the law of man—at least in Nebraska—prevents women from wearing men's clothes when they are engaged in war work. Attorney General W. E. Reed ruled. Attorney General Reed's opinion was given to the Rev. W. B. Longpre, of Maxwell, Neb., who wrote Governor Keith Neville a letter saying the wearing of men's garments by women was against Bible doctrine and asking if it was contrary to State law. Gov. Neville put the question up to the State's legal adviser and the opinion followed.

WHY THE DIFFERENCE

The Register says that the W. W. Pigz property in Richmond that could have been sold for \$16,000 a year ago, was sold last week for \$7,525. Stanford property that sold last year for \$2,000 or \$3,000 is worth almost double the amount now. Is Richmond on the down grade?

CONGRESSMAN HELM HERE

Congressman Harvey Helm arrived Saturday night from Washington City, where he has been busy for months. It is his first visit to his home in a long time and his many friends and admirers are glad to shake his hand again.

He is feeling good over the prospects of winning the war at an early date and thinks, as the rest of us, that this country's part in the world war has been the most remarkable the world has ever known.

Mr. Helm's record in Congress is one that his friends have good reason to be proud of. He has stood by the President all along the line. In fact, he is one of Mr. Wilson's staunchest supporters in the war and other measures that have come before Congress.

Asked about his election on Nov. 5th, he said: "Oh, I feel that I am going to win, but I am just as much interested in the election of Gov. Stanley to the Senate as I am in my own race. In fact I am really putting in more licks in his fight than in my own. I do not think there is a doubt about Kentucky going democratic this year, and certainly there is none if the people will stop long enough to think the what a democratic President and a democratic Congress and Senate have done in these perilous times."

Congressman Helm is in fine health and looks every inch a winner. His friends hope that his clarion voice will be heard from the stump if the infernal influenza lets up enough to lift the ban against gatherings.

DONATES \$100 TO RED CROSS

For profiteering in the sale of mill feeds, the Crab Orchard Milling Co. was on Oct. 22 closed for 30 days and allowed to make a compromise settlement by donating \$100 to the Lincoln County Chapter of the American Red Cross. Saunders, County Food Administrator, \$100 paid by Crab Orchard Milling Co. for profiteering. Oct. 22, 1918. Wm. Severance, Chairman Lincoln County Red Cross."

The mill is closed with a notice placarded on its door showing why, and the key to the establishment held by M. M. Perkins, Deputy Food Administrator.

Much sympathy is felt for the wife and parents in their great loss.

WOMEN HEAVY SUBSCRIBERS

The women's subscriptions to the Fourth Liberty Loan amounted to \$66,975. Morgan at Waynesburg.

THE LATEST WAR NEWS

The British in the vicinity of Valenciennes and the Americans north-west of Verdun pushed forward their lines yesterday against vigorous opposition of the enemy. The British against intense resistance forced their way to within two miles of the strategic city of France, which has been an important railroad center for the Germans and is being defended with desperation by the enemy. The British also crossed the Aisne canal in the LeCateau sector. The Americans gained important positions against stiffening resistance. Further gains also were made in Belgium and Northern France.

Dr. Solf, the German secretary for Foreign Affairs, has sent another message to President Wilson on the important question of peace. This time Germany professes to accept all of the conditions for an armistice and eventual peace as laid down by President Wilson. The reply indicates Germany's willingness to evacuate occupied territory under an agreement to be reached by the military chiefs in the field. It is announced in the note that all submarine commanders have been ordered to cease attacks upon passenger vessels. Denial is made that lifeboats and passengers have ever purposely been destroyed or that any authorized atrocities have been committed by German troops. It is declared that Germany now has a parliamentary form of government, responsible to the people.

The towns of Zeebrugge and Heyst have been occupied, the entire coast of Belgium evacuated by the Germans, the Bruges-Ghent canal crossed and the fall of Ghent is momentarily expected, while 15,000 Germans have been forced to cross the Dutch frontier and are now interned in Holland. This sums up the fighting in Belgium, which in the past week has swept the enemy from strongly entrenched positions. To the south the British have advanced to within two miles of Tournai. In the Selle river sector they have crossed that stream, and near Le Cateau the Germans are throwing in every available man to stop the tide of Allied advance. In the Champagne region the American forces have captured Rethel at the point of the bayonet and pushed forward their lines.

Germany's reply to President Wilson has been handed to the Swiss Minister at Berlin for transmission to the United States, according to unofficial advices reaching Amsterdam from German sources. In the reply Germany expresses a willingness to evacuate Belgian soil, but believes such withdrawal would necessarily take several months. It is added that the German government is prepared provisionally to abandon its U-boat campaign. A Madrid dispatch says that Germany has officially notified the Spanish government that the German Admiralty has recalled all submarines to their bases.

Gen. Maurice, writing on the situation on the battlefield, urges that the people think more of victory and less of vengeance. He declares that to create in the minds of the German people the idea that the Allies intend to destroy the nation is to play into the hands of the Hun war lords. Writing from Holland, George Renwick tells of the lengthy conferences held by Chancellor Maximilian, Ludendorff and Admiral Scheff over the reply Germany will send to the United States. The indications are, he points out, that the German people hope that the reply will be satisfactory, though the war lords realize what they must give up to bring about an armistice. From Rome comes a dispatch that Turkey is even in a more

NEGROES ARE FOR STANLEY

The Blue Grass News, of Lexington, edited by one of the most influential negroes of his section, E. D. Willis, came out in a strong endorsement of Gov. Stanley for the U. S. Senate, in the issue of last week and made a special appeal to his race to vote for him, because at the risk of his own life he went to Murray, where a mob was trying to intimidate the court, and saved a colored man from its vengeance by an appeal to the better natures of the crowd and telling them that if they attempted to lynch the man, it would have to do so over his dead body. The News says that for this, the colored race owes Gov. Stanley a debt of gratitude that they can in a measure repay by their votes, and urges them to do so. The paper also praises the governor's efforts to secure legislation for better protection of the negro race and adds that all his acts have shown the utmost endeavor to give it every consideration. The same issue contains letters from Rev. P. H. Kennedy, of Henderson, and Rev. J. T. Morrow, of Lexington, also commending the governor and urging the negro to show his appreciation of his many acts of favor to him. There seems to be a general feeling among the more intelligent of the race to reward the governor with their votes and stop herding with the republicans almost in a body. There is also a desire to show their resentment to Dr. Ben L. Bruner for his vote in the Lexington convention giving the negroes but an eighth of a vote representation in the body, although in the elections they have been their principal reliance for any sort of a showing. The negroes are finding out their real friends and unless all signs go for naught are going to stop following the republican orders like sheep follow a bell wether.

All the democratic speakings scheduled for this week have been called off on account of influenza, but Chairman Thomas S. Rhea is hopeful that those fixed for next Saturday can be held and that from the 28th until the election speakers can appear on every stump. There are those who contend that speakings do no good, but it is a mistake. Even if the speaker does not amount to much oratorically, the meetings draw people together and put them to thinking. We know that if democrats do their duty Stanley will be elected by an overwhelming majority and that our own Harvey Helm will break even his fine record for big majorities, but some how or other interest in the election is flagging. There never was an election more important and the Interior Journal pleads with every patriotic citizen to get busy now and keep it up until Nov. 5th to get every man possible to the polls to vote for Stanley and Helm.

At the meeting of the Inland Press Association at Chicago, the president reported that the participation of the United States in the war, 250 daily papers have had to consolidate and that 850 have been forced to suspend. As there are a good many more papers than are necessary, this may not be a bad thing. The survival of the fittest may work an improvement in that regard. There is, however, one thing that we who are holding on experience and that is that we never know "where we are at." The Federal Commission charged with fixing the price of print paper does not seem to know its mind for a week at a time. A few days ago it fixed the price in car-load lots at 3¢. Now it says it must be at least 3½¢, with smaller quantities up to 4½¢. That will make ours cost over 5 cents, a ruinous price at our present charge for subscriptions and advertising. There are going to be more suspensions and then some.

It is more than probable that the profanity engendered by the war and the effort to damn the kaiser and send the whole brood of Hapsburgs and Hohenzollerns to hell may stick to those who will rather like that sort of imprecation. One Louisville preacher said out loudly, "God damn the kaiser," and when his congregation applauded, he waived a remonstrance and said: "That was a prayer, not a curse." All the same it does not sound good to ears whose owners have been taught "Thou shalt not swear." Do not let us get the silly and sinful habit of swearing, even if no other words fully fit in when speaking of the beast of Berlin and all that class of vermin.

The oversubscription of the six billion loan is notice to the kaiser that this country will give its last farthing that he and his miserable horde shall be swept from the earth they would desecrate and destroy. We are indeed proud of old Lincoln county for going away over the top and of Chairman J. S. Hocker and his gallant band of assistants for making the result possible. As Admiral Sampson said after a naval victory in the war with Spain, when many were claiming the honors: "Do not let us quarrel over the matter. There is glory enough for all," including those who have subscribed to the limit of their ability.

There ought not to be any necessity for democrats to be told what their duty is in this world crisis. The President has asked that his real friends be sent to render him unflinching assistance and they should obey like good soldiers the command of their officers. A republican congress can not be depended on to give the President that support so necessary in the winning of the war. Stamp under the rooster and that insures your vote for all the nominees.

In an unusually strong article urging the election of Gov. Stanley to the Senate, the Courier-Journal refers to his opponent as "sophomoric and inexperienced" and says he would in all probability have joined in the baying chorus of approval of Senator Lodge's insincere criticism of the President's first reply to Prince Max. Dr. Bruner may deny this, but a

SEVEN DEATHS IN ONE DAY

There were seven deaths from influenza at Lebanon Junction Sunday, two of the victims being buried here. Over 200 people are said to be down with the fearful disease and there is not sufficient help to care for them.

JAMES SKIDMORE

Word came to town just before noon today that James Skidmore was dead of influenza in the Highland section. His burial will occur tomorrow.

DIED OF INFLUENZA

A thirteen-year-old son of William Francisco died of influenza at Brodhead Sunday night. His mother was buried Friday last.

The Public Health Service is now mobilized for a national campaign against Spanish influenza. Additional headquarters for State-wide efforts will be established.

EVERY DEMOCRAT GET BUSY

The influenza situation not having sufficiently improved for the lifting of the ban on public gatherings, the speakers scheduled for the greater part of this week have, of course, been cancelled, but Chairman Thomas S. Rhea hopes that those fixed for next Saturday can be held, due notice of which will be given. At any rate, it is expected that by the first of next week, there will be no longer danger in gatherings and that from the 28th until election the woods will ring with fervent democratic oratory by the distinguished speakers that have been engaged. Should expectations not be realized, however, it is hoped that every democrat will constitute himself a committee of one to see that the full democratic strength is brought out. There is danger that the next Senate may be republican and when it is told that nearly every republican member who will succeed to important committee assignments, has opposed the President's war program and voted against one or another of his measures, it will be seen how important it is that a man be sent from Kentucky who will give his unflinching assistance to the administration. Kentucky's representative may decide the complexion of the Senate that meets next March and we appeal to democrats to see that it remains democratic by electing Gov. Stanley, the President's

choice, to fill the position. Stamp under the rooster and thereby vote for Stanley and the Congressional and judicial nominees.

HAD TO PAY WAR TAX

After the fair money had about all been paid to the stockholders, the secretary was informed that a war tax of \$42.80 had to be paid, and as Uncle Sam does not wait very patiently after he says the word, the secretary paid the money. If each stockholder will hand the aforesaid secretary or the president, Mr. B. W. Givens, the small sum of fifty cents, the little indebtedness can be wiped out in a jiffy. A few have already paid. Let others do so at once. The \$10 invested brought each stockholder \$5.65 clear profit. He certainly will not hesitate to pay 50 cents of it to the good cause to which it has been applied.

LAST TIME OUT WITH TAX BOOK

I am going to give the people one more chance to pay their taxes without having to come to Stanford to do so, but this positively is the last time I shall leave my office with the tax books. I will be at Crab Orchard Tuesday, Oct. 22; at Hustonville, Wednesday, Oct. 23; at McKim, Thursday, Oct. 24; at Kings Mountain, Friday, Oct. 25. At the latter place I will have the graded school tax books and those who owe their school taxes will please let me give them a receipt. H. C. Baughman, Sheriff of Lincoln county. 2t

Little Lydia Baumann, the bright seven-year-old daughter of Mr. and Mrs. Fred Baumann, died at their home at an early hour this morning after an illness of several days of influenza. "FLU" HURTS POSTOFFICE

Postmaster G. L. Penny is down with influenza, Carl Ashlock is ill with the same trouble and Miss Emma Hays, who has been sick for more than a week is able to be at her post of duty only a few hours at a time. Will Reinhart was pressed into service this morning to make the city delivery, while T. D. Raney is carrying No. 3 today while Adam Pence, the regular, is in the clutches of the "flu."

The Spanish influenza situation in Louisville showed improvement yesterday.

W. A. Cooper bought of George Russell, a weanling mare mule colt for \$85 and a horse mule colt for \$50. Mr. Cooper also bought at Danville yesterday several mule colts at \$45 to \$85.

One of the finest bunches of fat cattle delivered in Richmond for some time, were 25 head of 1,400-pound steers which were raised by James J. Neale, one of Madison's thrifty and progressive farmers. The steers were purchased by A. S. Thompson, of Paris, and the price paid was \$15.25 per hundred pounds. They were shipped to an eastern packing house—Richmond Register.

This week Walter Bennett and Lewis Neale, two of Madison's most progressive farmers, sold about 100,000 pounds of hemp. The purchaser was Banks Hudson, of Danville, and the price paid was \$14 per hundred pounds. The sellers are now busily engaged delivering the hemp in Richmond. The 1918 crop of hemp in Madison county is exceptionally fine, and owing to the high prices prevailing, this means thousands of dollars in the pockets of farmers and laborers—Register.

Can Now Eat and Sleep in Comfort

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."

THEIR RICHES

A wee little house, on a poor little road,

With a little back yard behind it. Afar from the avenues, stately and broad,

But Love is quite able to find it! And Molly is waitress, and laundress, and cook,

And Tom lends a hand when he's able; The furniture's plain, and the carpets are cheap,

And there's little to put on the table. In fact, they are poor, as the world reckons up,

And there's little laid up—and yet maybe, These two may be worth a round million or more,

If you put a fair price on the baby!

WHAT IS A GOOD QUARTER?

A shiny new quarter that rings "dead" is not necessarily counterfeit. In fact, the chances are that it is only one of the coins containing minute air holes which have slipped past inspection tests of the mints recently. The slight imperfection, invisible to the eye, makes a coin "plunk" like lead. The Treasury secret service recently has received several of these quarters from persons who believed they had discovered bogus coins. In each case, a good quarter was returned and the "dead" money sent to the mint.

WOMAN'S FAITH HELPS HUSBAND

"I owe my good health to my wife who had faith in a newspaper ad she saw of Mayr's Wonderful Remedy. I was down so badly with stomach and liver trouble after 15 years of suffering and trying every known remedy that I had no faith in anything. This medicine has certainly been a 'God-send' to me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Lincoln Pharmacy; The Penny Drug Store.
